Gary:

Omar Valdez has been tasked as TCEQ POC in coordinating with you on Federal OSC activities related to FJ Doyle site going forward. Omar is our TCEQ SF Program Coordinator w/the Removals Program/Superfund Site Discovery & Assessment Program. [I'm sure you already know each other!] I am currently working to bring Omar up to speed on our latest discussions. Omar's direct contact # is (512) 239-6858.

I will continue to assist Omar on the case (just in background), so please cc me on any technical discussion emails directed to Omar in future.

Thx!
Ellie
